

Detail	EcoStud Z Furring Base Treatment: Option 1		
1½" = 1' - 0"	Drawing # 10-3702	Date: 08-23-10	Rev: 2
 <p>The diagram illustrates the base treatment for EcoStud Z Furring. It shows a cross-section of a masonry wall on the right. A Z-shaped furring strip is attached to the wall. The furring strip is secured to the masonry with a pin and glue. Below the furring strip, there is a layer of 1.5-inch tall EPS foam. The furring strip is also shown to be attached to a vertical stud on the left side of the wall.</p> <p>Labels in the diagram:</p> <ul style="list-style-type: none">Glue and Pin per Specification TypZ Furring1.5 Tall EPS FoamMasonry
